

Dear Hiring Manager,

I am writing to express my enthusiasm for the Senior Flutter Developer position advertised as part of your team at Bikeflip, a venture-backed startup poised to revolutionize the bicycle marketplace. With a Bachelor's degree in Computer Science and Electrical Engineering and over 3 years of specialized experience in Flutter development, I am excited about the opportunity to contribute to making cycling accessible and enjoyable for everyone through cutting-edge technology.

At Hedgehog Medtech, Inc., I spearheaded the development of medical treatment apps in Flutter, enhancing patient care and safety. This role honed my skills in designing and implementing scalable, high-performance applications—a foundation I am eager to bring to Bikeflip. My tenure as a Product Manager at THE PHAGE, Inc., further refined my ability to collaborate with cross-functional teams to define, design, and deploy innovative features, aligning perfectly with the responsibilities outlined for your role.

Your mission resonates with me not only as a technologist but also as an avid cyclist. I am passionate about leveraging technology to foster communities and enhance experiences, as evidenced by my leadership in developing a social networking service for university students at Conomai. This experience, coupled with my technical proficiency and project management acumen, positions me to significantly contribute to your platform's mission to provide a seamless, user-friendly experience to cyclists worldwide.

I am particularly drawn to the opportunity to mentor junior developers, emphasizing the importance of code quality, best practices, and continuous learning. My background in leading projects from concept to deployment and staying abreast of technological advancements ensures that I can drive your Flutter development projects forward with innovation and excellence.

I am excited about the prospect of joining Bikeflip, not only to contribute my skills and experiences but also to grow with a team that shares my passion for cycling and technology. I look forward to the opportunity to discuss how I can contribute to your team and help achieve your vision for a transformed bicycle marketplace.

Thank you for considering my application. I am eager to bring my blend of experience, passion, and technical expertise to Bikeflip and am looking forward to the opportunity to discuss how

I can contribute to your success.

Warm regards,

Noriaki Handa
